

# Peace-Liard Burn Program

## 2014 Update

In 2014, the Fish & Wildlife division (in partnership with the Wildfire Management Branch) of FLNRO successfully treated approximately 6,800 hectares of wildlife habitat across the Peace Region of northeast BC. Areas treated with prescribed fire in 2014 will restore important forage for ungulates in significant winter range and in relation to important habitat features, such as escape terrain.

Burn Location	Last Treated	Hectares Treated in 2014	Target Species
Farrell Creek	2007	317 ha	Elk, Mule Deer, Moose, Sharp-tailed grouse
Branham Ridge	2003	226 ha	Elk, Stone's Sheep, Moose & Mule Deer
Aylard Creek	1997	74 ha	Stone's Sheep, Elk & Moose
Chischa River	1983	613 ha	Stone's Sheep & Elk
Dunedin River	2005	704 ha	Stone's Sheep & Elk
Sulphur Creek	1988	704 ha	Stone's Sheep
Liard River-Nordquist	2010	767 ha	Wood Bison & Moose
Chee Mtn.	2010	1,640 ha	Elk
Sandpile Creek	Unknown	375 ha	Stone's Sheep & Mountain Goat
Frog River	2007	1,421 ha	Stone's Sheep & Mountain Goat

Funding for the Peace-Liard Burn Program provided by:

- Habitat Conservation Trust Fund
- Northern BC Guides Association
- Northeast BC Wildlife Fund
